

TSA PROHIBITED ITEMS

Due to increased security measures, there are many common items on the TSA's list of prohibited items for carry-on and/or checked baggage. To ensure the safety and the convenience of fellow travelers, please be sure to leave these items at home.

If a prohibited item is brought to the checkpoint, travelers may be criminally and/or civilly prosecuted or at the least asked to dispose of the item. A TSA screener and/or law enforcement officer will determine the appropriate course of action depending on the item and the circumstances. Please understand that bringing a prohibited item to a security checkpoint – even accidentally – is illegal.

Common sense is the best guide for what to leave behind when traveling by air. Weapons of any kind, as well as everyday objects that can obviously be used as weapons, are inappropriate items in carry-on or checked baggage. Please check official government lists for the most current restrictions before taking the word of friends, family members, or others.

View the official list of prohibited items on the TSA website, call the Consumer Response Center at 866-289-9673, or email TellTSA@tsa.dot.gov.

HAZARDOUS MATERIALS

Certain items are considered hazardous materials and, by federal law, are prohibited from being transported on all Prescott Support flights. The following items are examples of items that will not be transported by Prescott Support.

Categories of hazardous materials that are forbidden aboard the aircraft in checked or carry-on baggage

Flammable substances	Compressed gases
Explosives	Corrosives
Oxidizers	Radioactive materials
Poisons	Other items displaying hazmat markings

Items that are allowed as carry-on only

E- Cigarettes / Vaping devices
One lighter or a single package of safety matches
Spare batteries
Portable charging devices / power banks / secondary charging devices

Note: If you are required to gate check your items, spare batteries must be removed. These items are not allowed in checked baggage.

Examples of hazardous material forbidden aboard the aircraft in checked or carry-on baggage

Alcoholic beverages containing more than 70% (140 proof) alcohol by volume	Liquid fuels (e.g. gasoline, butane, lighter fluid)
Aerosols	Liquid oxygen
Avalanche rescue packs	Oxygen bottles or cylinders
Chemical agent monitoring equipment	Pesticides
Chemical oxygen generators	Samsung Galaxy Note 7 devices
Disabling devices containing an irritant or incapacitation substance (such as mace or pepper spray)	Self-balancing scooter / hoverboard (contain lithium or lithium-ion batteries)
Electro shock weapons	Self-defense spray/mace
Equipment with fuel sources (such as camping stoves, heaters, chain saws)	Spillable Batteries (unless it is for wheel chair/ mobility aid)
Equipment with internal combustion or fuel cell engines	Spray starch
Fireworks	Strike anywhere matches
Hydro carbon gas cartridges	Smart Luggage with non-removeable batteries
Lithium batteries over 160 watt hours are forbidden in checked baggage (batteries with watt hours over 100 but less than 160 need airline approval)	

You must declare any hazardous materials or dangerous goods you are bring to the airline. Failure to do so violates U.S Federal Law. Violators may be subject to a maximum penalty of 5 years imprisonment and up to \$250,000.00 in fines. (49 U.S.C 5124)
